

Town of Blanchard Residential Garbage Carts

Under the new Republic Services contract effective August 1, 2024, Republic Services will only service their approved carts.

If you presently have a personal cart(s) in addition to your approved Republic Services cart, your personal carts will be picked up for the next couple of months but they will be phased out. The Republic Services trucks are not designed to pick up any cart other than their approved cart and damage could occur to unapproved carts.

By using only the approved carts, this insures you will have a safe, functional cart for your use that Republic Services will be able to service and maintain. This will lead to a safer service and a less cluttered and cleaner look on service day. Please note that all waste **MUST** be in the cart to be serviced.

If any resident needs an additional approved cart – please contact Blanchard Town Hall at (318) 929-2928. We will instruct you on the steps to obtain an extra approved cart at a monthly cost of \$12.00. (This will be in addition to the new monthly fee for one cart of \$22.50.)
